

Key Community Bus Route

Key 2 life is a charity based in South Shields working across South Tyneside. We were awarded funding for a new community bus project recently and this enabled us to be able to convert a double decker bus which will be driving to different locations within South Tyneside on a daily basis and parking up for a few hours in the hope of helping those people within the local communities.

Downstairs there will be a shop selling good quality fresh fruit and vegetables, packet, tinned, and non-perishable food and non-food and hygiene items, baby wipes, milk and nappies for very low prices in the hope of helping individuals/families money to go further, reduce waste and lower the need for the number of people attending food banks which is at an all-time high. All money made from this project feeds back into the charity and food bank we run in South Shields.
