23rd October 2024

Dear Parent/Carer,

As part of our Maths curriculum in Reception, the children have been taking part in the Mastering number programme which was created by the NCETM (National Centre for Excellence in the Teaching of Mathematics). We have found the programme to be very successful in supporting children's early number development.

The NCETM have designed a parent project to help parents and children work together to consolidate number skills. We are inviting all Reception parents to be part of this fantastic opportunity and we will be holding a parent workshop on Monday 11th November in the school hall at 2.30pm.

Your child will attend the workshop with you so you will have the opportunity to explore the resources with them and ask any questions. After the workshop on Monday 11th November, all activities are completed at home. The project will run for six weeks and is intended to be a quick and simple way of becoming involved in your child's mathematical learning.

We would love it if you could get involved! It is really important that we know who will be attending the workshop so that we can ensure we have enough space and to prepare resources. Please let us know if you will be coming by completing the reply slip below.

Your sincerely

Mrs Armstrong

☐

I will be attending the NCETM Maths Parent Workshop on Monday 11th November.
