

School Milk

Milk provides energy, protein and a wide range of vitamins and minerals, including calcium. Calcium is essential for the development of strong bones and teeth. You pay considerably less (the equivalent of 3 pence per one-third pint) for milk in our school thanks to an EC subsidy. The milk provided is a 189/200ml carton of semi-skimmed per day during term time.

Milk is available to all primary school children; the price is £9.10 per term. We will contact you when payment is due.

For children who are eligible to receive free school meals **due to family income circumstances** they are also entitled to free school milk.

School can also provide Soya milk for children who are Lactose Intolerant. Please contact the school office if you require any more information
