

and shoulders. I think my fur makes me unique! I hear it is good to be unique so I wonder why my owners did not want me? Could you be the owner for me? I have so much love to give so please let me love you!

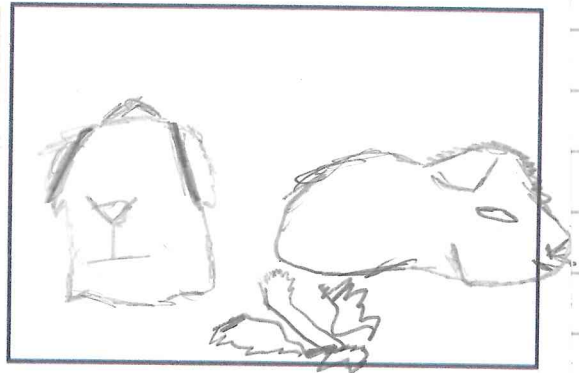

Hi

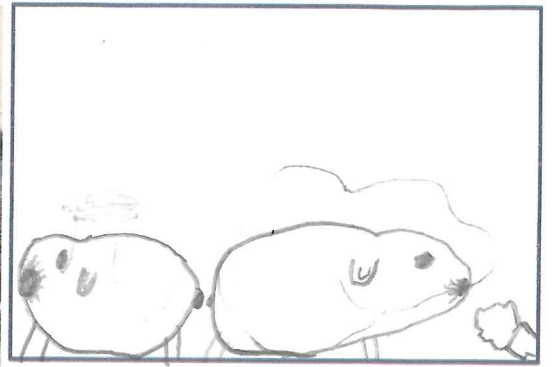

My name is Lottie. The RSPCA grant 100% sure of my exact age but they think I am around 1-2 years old so I am a young girl! Not only do I have white as snow fur but very distinctive markings on my fur. The fur on my Not rails only very tiger-like but don't worry I am cute and Notorious deadly predator like those. Tigers might look cute but they're deadly. I am cute and Not deadly - Please I hear you say! Those Mar bings appear on my ears part of my head

Hi! we are moulder and scully and ~~arent~~^{arent} we just the cutest rabbits you've ever seen? Please say yes because it will make our day. Whilst we might appear to have BIG ears we have even BIGGER hearts and would fill your life with so much Love! Not only would we give you some Love - we would make you smile with our mischievous but easily manageable nature - we are what humans would call bubbly and vibrant. I mean we are only 6-7 months so we are bound to be a little hyper at times. We might be shy when we first meet you because of the challenges and abandonment we have faced in our lives so who can blame us? we wouldn't say we were attention seekers but we do ~~ask~~^{seek} attention and once we get to know you we would love as much fuss as you are able to give. Not only do we want Love - we give Love too. I hope we tick all of your boxes and will choose us as your new pets and companions.

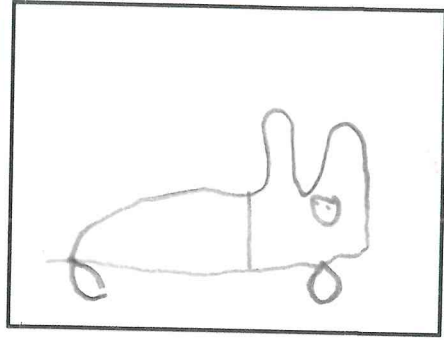

Meet Ant and Dec, oops I mean casper (white) and Marley (brown). Just like Ant and Dec, casper and Marley come as a pair. They make the ultimate duo and who wouldn't want this adorable, fluffy package? The pair of them love nothing more than snuggling up together so if they had human laps and arms to cuddle up to - you would make their dreams come true! They have not had the best start in life so they definitely deserves a peaceful, loving home with some incredible owners! could you be the owners? could you change their lives for the better? could you give them what they need and deserve? thank you.

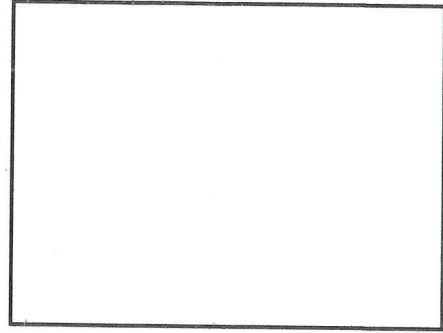

Hi our name is Casper and Marley, we love to be around people and would like to have a warm, loving home to stay in. You would have to feed us once a day and we eat really fast. We are really energetic and love to play. In the Winter you will have to keep me indoors or in the garage. We hope you want to adopt us. from Casper and Marley.
